

Kanani K. M. Lee
Yale University
Department of Geology & Geophysics
Kline Geology Laboratory, Room 207
210 Whitney Avenue
New Haven, CT 06511
Phone: (203) 432-4354 Fax: (203) 432-3134
kanani.lee@yale.edu
<http://people.earth.yale.edu/profile/kanani-lee/about>

Education

- 1999-2003 Ph.D., Geophysics
University of California, Berkeley
Thesis advisor: Raymond Jeanloz
Thesis: Exploring planetary interiors: Experiments at extreme conditions
- 1995-1999 BS, Physics, *Cum Laude*
University of San Francisco

Appointments

- July 2008 - present Assistant Professor
Department of Geology & Geophysics
Yale University
- January 2006 - June 2008 Assistant Professor
Department of Physics
New Mexico State University
- January 2004 - December 2005 O. K. Earl Postdoctoral Fellow
Division of Geological and Planetary Sciences
California Institute of Technology

Selected Awards and Honors

- 2010 University of San Francisco's Arthur Furst Award for Outstanding Research Advancing Science for the Betterment of Humanity
- 2005-2008 Alexander von Humboldt Summer Fellow, Bayerisches Geoinstitut
- 2004-2005 O. K. Earl Postdoctoral Fellow, California Institute of Technology
- 2000-2003 National Science Foundation Graduate Research Fellow

Selected Proposals Funded

- 2013-2015 NSF: "Experimental studies on melting (Mg, Fe)O ferropericlase"
- 2010-2015 NSF: "CAREER: Chemical Heterogeneity in Earth's Lower Mantle"
- 2006-present Carnegie/DOE Alliance Center: "Pressure- and chemistry-dependent electron-capture radioactive decay," 2006-2008; "High-pressure investigation of transition-metal oxides," 2009-2010; "High-pressure melting of dense potassium," 2010;

“Structure and strength of cold-compressed graphite,” 2011; “Homogeneous starting materials for high-pressure experiments,” 2012.

Teaching Experience

- 2012-present G&G 319/519: Intro. to the Physics and Chemistry of Earth Materials (Fall)
2010-present G&G 207: The Science of Water (Spring)
2009 G&G 744: Seminar in Mantle and Core Processes (Fall)
2009 G&G 326/526: Introduction to Earth & Planetary Physics (Spring & Fall)
2006-2008 PHYS 213: Mechanics, Asst. Professor, NMSU
PHYS 214: Introduction to Electricity & Magnetism, Asst. Professor, NMSU
PHYS 305G: The Search for Water in the Solar System, Asst. Professor, NMSU
PHYS 451: Intermediate Mechanics, Asst. Professor, NMSU
1996-2003 Exploratorium (www.exploratorium.edu) “Physics of Toys” volunteer.

Publications (* undergraduate advisee, ^ graduate student advisee, and # postdoc advisee)

29. Y. Al-Khatatbeh and K. K. M. Lee, “From superhard to hard: A review of transition metal dioxides TiO_2 , ZrO_2 and HfO_2 hardness,” *in preparation, INVITED review, Journal of Superhard Materials*, (2013).

Community Outreach

Currently, my volunteer work extends locally, regionally and nationally. Locally, I mentor middle school students’ science fair projects as well as judge high school science fair projects for the New Haven Science Fair. I have also been the resident scientist in the “Ask-A-Scientist” portion of the Girls’ Science Investigations Program put on by the Yale Department of Physics. I also participate in the “Adopt-A-Physicist” Program (sponsored by AIP), an online forum where high school classes from across the nation ‘adopt’ me and ask me questions regarding their own scientific interests.

As part of a recent endeavor funded through my NSF CAREER grant, I, in conjunction with illustrator Adam Wallenta, have written and produced the first of two Earth science comic books used in the New Haven Public Schools system. The first is entitled, “The Adventures of GEO: Plate Tectonics” and was published in November 2012 (www.adventuresofgeo.com).
