

JUAN M. LORA

Education	Ph.D., Planetary Sciences , University of Arizona <i>Dissertation: “Radiation and dynamics in Titan’s atmosphere: Investigations of Titan’s present and past climate”</i>	2014
	B.S., Astronomy , <i>magna cum laude</i> , University of Southern California	2009
Appointments and Research Experience	Assistant Professor , Yale University Department of Geology and Geophysics	Starting 2019
	Postdoctoral Fellow , University of California, Los Angeles <i>Chancellor’s Fellow & California Alliance Fellow</i>	2014–2018 2017–2018
	<i>NSF AGS Postdoctoral Research Fellow</i> Department of Earth, Planetary, and Space Sciences	2015–2017
	Graduate Research Associate , University of Arizona Department of Planetary Sciences	2009–2014
	Teaching Assistant , University of Arizona Department of Planetary Sciences	2010–2012
	Research Associate , NASA Academy, Goddard Space Flight Center	2008
	Undergraduate Researcher , University of Southern California	2007–2009
Mission Involvement	NASA New Frontiers 4 (Phase A): <i>Dragonfly</i> mission to Titan (Co-I; E. P. Turtle, PI)	2017–2019
Grants and Fellowships	NASA Solar System Workings Grant: “The role of moist convection in Titan’s hydrologic cycle and general circulation” (PI)	2017–2020
	University of California Chancellor’s Postdoctoral Fellowship	2017–2019
	California Alliance (NSF-AGEP) Postdoctoral Fellowship	2017–2019
	NASA Cassini Data Analysis and Participating Scientist Program Grant: “Understanding the controlling factors of Titan’s climate, weather and methane hydrology in space and time” (Co-I; J.L. Mitchell, PI)	2016–2019
	NSF AGS Postdoctoral Fellowship: “Impacts of large-scale dynamics on regional climate sensitivity: Model-paleodata comparisons in three mid-latitude regions” (PI)	2015–2017
	NASA Earth and Space Science Fellowship: “Modeling Titan’s atmospheric dynamics and interaction with methane”	2012–2014
	Shandel Education Plus Award (University of Arizona)	2012
Honors and Awards	NASA Planetary Science Early Career Fellowship (ECF)	2017
	Gerard P. Kuiper Memorial Award, Lunar & Planetary Laboratory, U. of Arizona	2014
	College of Science Graduate Teaching/Mentoring Award, University of Arizona	2011
	Golden Key International Honour Society	2010
	USC Renaissance Scholar Award	2009
	Phi Beta Kappa Undergraduate Award	2009
	Dean Joan M. Schaefer Scholarship	2007–2009
	USC Provost’s Undergraduate Research Fellowship	2007–2009
	Albert Fisher Science Scholarship	2007–2008

Invited Colloquia and Talks	Earth/Planetary Science Special Seminar, California Institute of Technology	2018
	Earth System Science Seminar, UC Irvine	2018
	CLaSP Seminar, University of Michigan	2018
	Department of Geology and Geophysics Colloquium, Yale University	2018
	Department of Astronomy Colloquium, Cornell University	2018
	Whole Earth Seminar, Earth & Planetary Sciences, UCSC	2018
	Atmospheric and Oceanic Sciences Department Seminar, UCLA	2017
	Planetary Science Seminar, California Institute of Technology	2017
	AOPP Seminar, University of Oxford	2017
	Physics Department Lecture, Westmont College	2016
	Planetary Science Seminar, Jet Propulsion Laboratory	2016
	Planetary Science Seminar, UCLA	2016
	Laboratoire de Météorologie Dynamique Seminar, IPSL, Paris	2015
	Planetary Seminar, Georgia Institute of Technology	2015
	Yung Lunch Seminar, California Institute of Technology	2015
	Lunar and Planetary Laboratory Conference, University of Arizona	2014
	Planetary Science Seminar, UCLA	2014
Planetary Science Seminar, NASA Goddard Space Flight Center	2014	
Invited Conference Presentations	Lora, J.M. (2018). “The circulation and volatile cycles of Solar System atmospheres” (Invited Review). Comparative Climatology of Terrestrial Planets III, abstract #2030.	
	Lora, J.M. (2018). “Atmospheric rivers and the changing climate of western North America since the Last Glacial Maximum.” 2018 International Atmospheric Rivers Conference.	
	Lora, J.M. , J.L. Mitchell, C. Risi, and A.E. Tripathi (2017). “North Pacific atmospheric rivers and their influence on North America since the Last Glacial Maximum.” American Geophysical Union Fall Meeting, abstract #PP44C-06.	
	Lora, J.M. (2017). “The climate of Titan” (Invited Review). Titan Through Time 4.	
	Lora, J.M. , J.L. Mitchell, C. Risi, and A.E. Tripathi (2016). “Atmospheric moisture transport to western North America during the Last Glacial Maximum and deglaciation.” Geological Society of America Annual Meeting, abstract #288614.	
Service	Referee for <i>Geophysical Research Letters</i> , <i>Icarus</i> , <i>Nature Astronomy</i> <i>Nature Communications</i> , <i>Nature Geoscience</i> , <i>Planetary and Space Science</i> , <i>Scientific Reports</i>	—
	Panelist, External Reviewer, and Executive Secretary, Multiple NASA Planetary Science Division proposal review panels	—
	Associate Editor for <i>Icarus</i>	2018–present
	Student Research Symposium Judge, UCLA	2015
	Local Organizing Committee, <i>Exoplanets, Biosignatures and Instruments</i> Conference, Tucson, AZ	2013–2014
	Curriculum Committee, Lunar and Planetary Laboratory	2011–2013
	Director Search Committee, Lunar and Planetary Laboratory	2011
Outreach	Co-lead, <i>DIYdynamics</i> Outreach Program, UCLA (<i>diy.dynamics.github.io</i>)	2016–present
	· Outreach visits to LA-area middle schools	
	· Develop demonstration modules using rotating tank experiments	
	· Develop teaching modules for classroom use	
	· Fluid dynamics demonstration videos	

	AAS <i>Afternoon Astronomy Coffee Hangout</i> Guest “Moons and Exoplanets: The same or different species?”	2018
	Segment on planetary rotation and Jupiter’s Great Red Spot, <i>Windfall Films</i> TV Series on the Cosmos	2016
	Organizing Committee, Public Talks Coordinator, Exploring Your Universe, UCLA	2015
	Lecturer on climate modeling, paleoclimate research workshops	
	· Workshop for UCLA students	2016
	· Workshop for Santa Monica College students	2015
	Outreach volunteer and exhibitor	
	· UCLA iPLEX K-12 classroom visits and workshops,	2014–2016
	· Exploring Your Universe, UCLA	2014
	Exhibitor, volunteer, and selected artist	
	· DPS/EPSC Meeting Art Show	2016
	· LPL Art of Planetary Science	2013–2015
	· DPS Meeting Art Show	2014
	Volunteer for “telescope nights,” University of Arizona	2010–2012
Teaching Experience	Lecturer and Fluids Laboratory Assistant, EPSS 153/200B, UCLA “Oceans and Atmospheres” (2 quarters)	2015–2016
	Guest Lecturer, EPSS 15, UCLA “Blue Planet: Introduction to Oceanography” (1 lecture)	2016
	Guest Lecturer, PTYS 170B, University of Arizona “The Universe and Humanity: Origin and Destiny, Honors” (4 lectures)	2012
	Teaching Assistant, NATS 102, University of Arizona “The Universe and Humanity: Origin and Destiny” (2 semesters)	2010–2011
Advising & Mentoring Experience	Sean Faulk (graduate student, EPSS, UCLA) <i>Principally advised by J.L. Mitchell</i>	2016–2018
	Hung-I Lee (graduate student, AOS, UCLA) <i>Principally advised by J.L. Mitchell and A.E. Tripati</i>	2014–2018
	Raúl Reyes (undergraduate student, Physics, UCLA)	2016–2018
	Alexandrea Arnold (undergraduate student, EPSS, UCLA)	2016–2017
	Chloe Whicker (undergraduate student, EPSS, UCLA)	2016–2017
	Shelley Cheng (undergraduate student, Physics, UCLA)	2017
	Tyler Vollmer (undergraduate student, EPSS, UCLA)	2015–2016

**Selected
Conference
Presentations
(Last 5 Years)**

1. **Lora, J.M.**, S.P. Faulk, J.L. Mitchell, C.P.D. Milly (2018). “Uncovering the influence of surface and subsurface hydrology on Titan’s climate system.” Talk. Cassini Science Symposium 2018.
2. Rafkin, S.C.R., R.D. Lorenz, E.P. Turtle, J.W. Barnes, M.G. Trainer, A. Le Gall, **J.M. Lora**, C.P. McKay, C.E. Newman, M.P. Panning, K.S. Sotzen, T. Tokano, C. Wilson, and the Dragonfly Science Team (2018). “Exploring Titan’s meteorology with Dragonfly.” EPSC 2018, abstract #597
3. Turtle, E.P., J.E. Perry, J.M. Barbara, P. Corlies, J. Kelland, **J.M. Lora**, S. Faulk, E. Karkoschka, J.D. Hofgartner, and the Cassini Titan Remote Sensing Planning Team (2018). “Insights into Titan’s atmosphere and surface at the end of the Cassini Mission.” COSPAR 2018
4. Rafkin, S.C.R., R.D. Lorenz, E.P. Turtle, J.W. Barnes, M.G. Trainer, A. Le Gall, **J.M. Lora**, C.P. McKay, C.E. Newman, M.P. Panning, K.S. Sotzen, T. Tokano, C. Wilson and the Dragonfly Science Team (2018). “Dragonfly: *In situ* exploration of Titan’s meteorology.” Poster. EGU General Assembly
5. Hand, K.P., E.P. Turtle, J.W. Barnes, R.D. Lorenz, S.M. MacKenzie, M.L. Cable, C.D. Neish, M.G. Trainer, E.R. Stofan, C. Freissinet, S.M. Hörst, C.P. McKay, **J.M. Lora**, J. Radebaugh, A.G. Hayes (2018). “Dragonfly and the exploration of Titan’s astrobiological potential.” Poster. LPSC #49
6. Turtle, E.P. and 38 co-authors, incl. **J.M. Lora** (2018). “Dragonfly: *In situ* exploration of Titan’s organic chemistry and habitability.” Poster. LPSC #49, abstract #1641
7. Turtle, E.P., J.E. Perry, J. M. Barbara, A.D. Del Genio, C. Sotin, S. Rodriguez, **J.M. Lora**, S. Faulk, R.A. West, E. Karkoschka, A.S. McEwen, M. Mastrogiuseppe, J.D. Hofgartner, P. Corlies, J. Kelland, A.G. Hayes, T. Ray, J. Pitesky (2018). “Titan insights during the final year of the Cassini mission.” Talk. LPSC #49, abstract #1656
8. **Lora, J.M.**, J. Mitchell, A. Tripathi (2017). “The North American hydrologic cycle at the Last Glacial Maximum.” Talk. AGU Fall Meeting, abstract #PP33D-04
9. **Lora, J.M.**, S. Faulk, J. Mitchell (2017). “The influence of topography on Titan’s atmospheric circulation and hydrologic cycle.” Talk. DPS meeting, abstract #304.02
10. Faulk, S., **J.M. Lora**, J. Mitchell (2017). “The impact of runoff and surface hydrology on Titan’s climate.” Talk. DPS meeting, abstract #304.01
11. Corlies, P., A. Hayes, M. Ádámkóvics, S. Rodriguez, J. Kelland, E.P. Turtle, J. Mitchell, **J.M. Lora**, P. Rojo, J.I. Lunine (2017). “A report of clouds on Titan.” Talk. DPS meeting, abstract #304.12D
12. **Lora, J.M.**, J.L. Mitchell, C. Risi, A. Tripathi (2017). “North Pacific atmospheric rivers at the Last Glacial Maximum.” PMIP4 conference, Stockholm
13. Dixit, Y., S. Toucanne, A. Tripathi, L. Bonnin, C. Fontanier, **J.M. Lora**, and G. Jouet (2017). “North Mediterranean Hydroclimate Influences on Sapropel Deposition.” Talk. Goldschmidt 2017
14. **Lora, J.M.**, J.L. Mitchell, M. Ádámkóvics, S. Faulk (2017). “Surface-atmosphere coupling in Titan’s hydrologic cycle.” Poster. Outer Planets Assessment Group meeting, Atlanta, GA
15. **Lora, J.M.**, J.L. Mitchell, C. Risi, and A.E. Tripathi (2016). “Atmospheric moisture transport to western North America during the Last Glacial Maximum and deglaciation.” Talk. AGU Fall Meeting, abstract #PP51F-02
16. **Lora, J.M.**, J.L. Mitchell, C. Risi, and A.E. Tripathi (2016). “Exploring changes in the hydroclimate of western North America since the Last Glacial Maximum.” Model Hierarchies Workshop, Princeton University

17. **Lora, J.M.**, M. **Ádámkóvics**, and J.L. Mitchell (2016). “Constraining the distribution of methane on the surface and in the troposphere of Titan.” Talk. DPS/EPSC meeting, abstract #520.01
18. **Ádámkóvics**, M., **J.M. Lora**, and J.L. Mitchell (2016). “Retrievals of boundary layer methane and isotope fractionation on Titan.” Talk. DPS/EPSC meeting, abstract #515.02
19. Faulk, S.P., J.L. Mitchell, S. Moon, and **J.M. Lora** (2016). “Quantifying precipitation variability on Titan using a GCM and implications for observed geomorphology.” Talk. DPS/EPSC meeting, abstract #502.05
20. Kataria, T., **J.M. Lora**, P. Gao, H. Wakeford, N. Lewis, M. Marley, D. Sing, and Y. Lian (2016). “Weather on extrasolar worlds.” Poster. Exoclines 2016
21. **Lora, J.M.**, M. **Ádámkóvics**, and J.L. Mitchell (2016). “Constraining and interpreting Titan’s methane hydrologic cycle.” Talk. Titan Aeronomy and Climate Workshop, Reims, France
22. **Lora, J.M.**, J.L. Mitchell, C. Risi, and A.E. Tripathi (2015). “Atmospheric rivers enhanced water delivery to southwestern North America at the Last Glacial Maximum.” Poster. AGU Fall Meeting, abstract #PP43B-2272
23. **Lora, J.M.** and J.L. Mitchell (2015). “Asymmetric lake distribution on Titan mediated by methane transport due to atmospheric eddies.” Talk. DPS meeting, abstract #300.04
24. **Lora, J.M.**, J.L. Mitchell, C. Risi, and A.K. Tripathi (2015). “Atmospheric moisture transport on Earth and Titan.” Poster. Comparative Climatology of Terrestrial Planets II, abstract #2
25. **Lora, J.M.** and J.L. Mitchell (2015). “The influence of baroclinic eddies on moisture transport in Titan’s atmosphere.” Talk. AMS AOFD meeting, abstract #9.4
26. **Lora, J.M.** and J.L. Mitchell, C. Risi, and A.K. Tripathi (2015). “Evaluating the role of the jet stream and atmospheric rivers in the moisture budget of glacial western North America.” Poster. AMS AOFD meeting, abstract #12
27. **Lora, J.M.** and J.L. Mitchell (2014). “The impact of ‘wetlands’ on Titan’s mid-latitude cloudiness.” Poster. AGU Fall Meeting, abstract #P23D-4015
28. **Lora, J.M.**, J. Lunine, J. Russell, and A. Hayes (2014). “GCM simulations of Titan’s paleoclimate.” Talk. DPS meeting, abstract #115.05D
29. **Lora, J.M.**, J. Lunine, J. Russell, and A. Hayes (2014). “Simulations of Titan’s paleoclimate with a new GCM.” Talk. Titan Through Time 3
30. **Lora, J.M.**, J. Russell, and J. Lunine (2013). “Titan’s methane cycle and the surface energy budget.” Poster. AGU Fall Meeting, abstract #P53D-1901
31. **Lora, J.M.**, J. Russell, and J. Lunine (2013). “Surface energy budget from a Titan GCM with realistic radiative transfer.” Poster. DPS meeting, abstract #309.04
